Subject: LightBox Data Services: Parcel Data Delivery Posted for UC Denver
Attachments: DMP_DELIVERY_20211202.xlsx; GeoSource and AddrScore.docx; README.txt; Data_Dictionary.xlsx

Your parcel data delivery is posted and available for download at your convenience. This delivery contains parcel data for 14 counties in Shapefile format. For delivery details please reference the attached spreadsheet and delivery summary below.

If you have any questions, please don't hesitate to contact Data Support (Support-DMP@lightboxre.com).

Counties: (see attached for details)

- 14 Counties

Data Summary:

- Data is split into two discrete layers for each county
- 1. Parcels_w_Attributes_<COUNTY FIPS>.shp
 - Contains all parcel records with assessor property attributes associated with parcels when possible.
- 2. Unmatched_Propertypoints_<COUNTY FIPS>.shp
 - Contains assessor property records where records could not be linked to a parcel.
 - Each record is provided as a geocoded point.

Data:

- ..\DELIVERIES\DMP_DELIVERY_20211202\ZIPS\

Support Files:

..\DELIVERIES\DMP_DELIVERY_20211202\SUPPORT_FILES\

- "README.txt" – Summary information of delivered components.
- "Data_Dictionary.xlsx" – Comprehensive property attribute data dictionary including field information.
- "GeoSource and AddrScore.docx" – Document describing methods utilized to geocode and score the property data address content.

FTP Access:

<ftp.digmap.com>

- User: ucdenver
- Pswd: EqNn2@_

Best,

Ignacio Carter-Cuadra
